

# THE WORLD AWAITS

Written by **Tomos Roberts**, *The World Awaits* is a manifesto for our time - urging us to build a bright future together, one step at a time.

Through the voice of an older brother to his sibling, each page invites us to consider our extraordinary potential, and how even the smallest actions will make the world a better place!

**Curriculum Links:** HASS, Literacy, Visual Arts

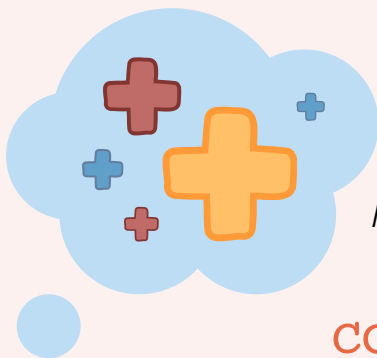

**Age Range:** Years K-6

## ACTIVITY: A YEAR IN THE PLUS!

This activity can be used as a creative approach to developing a **classroom agreement** driven by **student voice!**

### create

Using the **Adding My Plus** template below, invite your class to reflect on the story and consider how we can add our plus to the world.

### combine

**Cut out** and **combine** student responses on a large plus with the same headings, where everyone can see.

Make a column graph to see what ideas occur the most.

### collaborate

Now you have a big plus filled with student-led ideas, ask the class to consider:

- **Which points stand out to you?**
- **Which points will help us all achieve a year in the plus?**

Narrow ideas down to four or five points, and create a title. Is it an agreement, a guide, or maybe a list of responsibilities?

Make sure to refer back to these points throughout the term, and rest of the year!

NAME: .....

# Adding My Plus

I can plus by doing...

A plus is...

I can plus by saying...

How can I  
add plus?

draw a picture of yourself  
adding plus!
